GAURAV KAUSHIK

Python Developer | gkaushik341@gmail.com | 9910824884 | GITHUB | https://www.linkedin.com/in/gauravv-kaushik/

Python Developer with 1+ year of hands-on industry experience at Trank Technologies and 3+ years of part-time IT teaching experience, specializing in building scalable, secure, and high-performance backend systems using Python, Django, and Django REST Framework (DRF). Proven expertise in designing and developing RESTful APIs, implementing authentication and authorization, and integrating third-party services such as Stripe, Razorpay, and Gemini API. Strong background in database design, Django ORM optimization, performance tuning, and applying Data Structures and Algorithms (DSA) to solve complex problems efficiently. Solid foundation in core Python concepts, object-oriented programming (OOP), and clean architecture, with a consistent track record of delivering reliable, maintainable, and production-ready backend solutions aligned with modern backend engineering best practices.

TECHNICAL SKILLS

- **Languages**: Python, Javascript, SQL, HTML, CSS
- **Frameworks & Libraries**: Django, Django REST Framework (DRF), FastAPI, Numpy, Pandas, Matplotlib, React, React Native
- **Databases & ORM**: MySQL, SQLite, PostgeSQL, MongoDB, Django ORM, Query Optimization
- **Backend & Architecture**: REST APIs, JWT Authentication, Authorization, Role-Based Access Control (RBAC), WebSockets, Clean Architecture, Redis, Caching
- **Data Structures & Algorithms (DSA):** Arrays, Strings, Stacks, Queues, Recursion, Sorting & Searching, Problem Solving
- **Object-Oriented Programming (OOPs):** Classes & Objects, Inheritance, Polymorphism, Encapsulation, Abstraction
- **Arificial Intelligence (AI) & LLMs**: Langchain, Gemini API Integration, OpenAI API Integration, RAG, Vector Databases
- **Tools & Services**: Git, GitHub, Postman, VS Code, Linux
- **DevOps & Collabration**: CI/CD Basics, Software Engineering Principles, Agile/Scrum Methodologies, Docker, AWS(EC2, Lambda, S3, RDS)
- **Performance & Quality**: Debugging, Unit Testing, Integration Testing, Prompt Engineering, Performance Optimization

EXPERIENCE

Backend Developer | Trank Technologies Pvt. Ltd.

Gurugram, India | Dec 2024 – Present

- Developed and maintained scalable web applications using **Python, Django, DRF, React, MySQL, and PostgreSQL**.
- Implemented **AI-powered chat feature** using **natural language processing (NLP)** and API integration to enable real-time user interaction with AI assistants.
- Implemented **RESTful APIs** and integrated **third-party services** such as **Stripe** and **Razorpay** for seamless payment processing.
- Collaborated with **UI/UX designers, frontend teams, and clients** to define requirements, review deliverables, and ensure project success.
- Enhanced backend performance by **optimizing SQL queries and ORM usage**, reducing load time by up to **40%**.

IT Educator (Part-Time)

Apr 2021 – Mar 2024

- Taught **Web Development** concepts including **HTML, CSS, JavaScript**, **Software Engineering**, and programming languages such as **Python, Java, and C/C++**, along with **Pandas, NumPy, and Matplotlib**, to high school and college students.
- Mentored students on **problem-solving, algorithmic thinking,** and **real-world software development practices**.

PROJECTS

MyPotes: People Notes (AI Powered Contact & Notes Management System)

- Developed a **scalable backend API** powering both web and mobile apps for unified data management.
- Built rich **contact, notes, and reminder modules** with AI-powered chat assistance for smart interaction.
- Implemented **secure JWT authentication** and optimized API performance for seamless cross-platform use.

Deal Smart Dubai – E-Commerce Platform

- Developed a **multi-vendor e-commerce platform** for buying **electronics** with secure payment integration.
- Integrated **payment gateways** and connected **delivery partner** APIs for automated order tracking.
- Optimized backend performance and implemented **JWT-based authentication** for smooth, secure transactions.

Human Resources Management (HRM) System

- Developed a Django-based Attendance Management System to streamline tracking and reporting of attendance for employees (Clock In – Clock Out, Attendance sheet download, Personal Document uploads, Regularization Request).
- Integrated features like role-based access control to distinguish between HR and Employees permissions.

EDUCATION

- **Master of Computer Applications (MCA)** ***(Pursuing)***
  Dronacharya Govt. College, Gurugram University
  Aug 2025 – May 2027 (Expected)
- **Bachelor of Science (Honours) in Computer Science**
  University of Delhi, New Delhi
  Aug 2021 – Jul 2024 | CGPA: 7.74/10
- **Senior Secondary (Class XII) – CBSE**
  Kendriya Vidyalaya, Delhi
  Apr 2020 – Jun 2021 | Percentage: 83%
