GAURAV KAUSHIK

AI Engineer

gkaushik341@gmail.com | 9910824884 | https://github.com/gauravv-kaushik | https://www.linkedin.com/in/gauravv-kaushik/

AI Developer with 1+ year of industry experience at Trank Technologies and 3+ years of IT teaching experience, specializing in building AI-powered backend applications using **Python, LangChain, and Large Language Models (LLMs)**. Experienced in developing **Generative AI solutions, prompt engineering, Retrieval-Augmented Generation (RAG) pipelines, and LLM-based automation systems**. Proficient in integrating **LLM APIs such as Google Gemini, OpenAI, and Hugging Face**, and building intelligent applications using **LangChain, vector databases, embeddings, and semantic search**. Solid foundation in **Data Structures & Algorithms (DSA), object-oriented programming (OOP), and system design**, enabling the development of **efficient, scalable, and maintainable AI-driven solutions** aligned with modern **GenAI and LLM engineering best practices**.

TECHNICAL SKILLS

- **Languages**: Python, Javascript, SQL, HTML, CSS
- **AI / Generative AI & LLMs: L**angChain, Prompt Engineering, Retrieval-Augmented Generation (RAG), LLM Application Development, Google Gemini API, OpenAI API, Vector Databases, Embeddings, AI Chatbots, LLM Pipelines, AI Agents
- **Frameworks & Libraries**: Django, Django REST Framework (DRF), FastAPI, Numpy, Pandas, Matplotlib, React, React Native
- **Databases & ORM**: MySQL, SQLite, PostgeSQL, MongoDB, Django ORM, Query Optimization, Caching, Redis
- **Backend & Architecture**: REST APIs, JWT Authentication, Authorization, Role-Based Access Control (RBAC), WebSockets
- **Data Structures & Algorithms (DSA):** Arrays, Strings, Stacks, Queues, Recursion, Sorting & Searching, Problem Solving
- **Object-Oriented Programming (OOPs):** Classes & Objects, Inheritance, Polymorphism, Encapsulation, Abstraction
- **Tools & Services**: Git, GitHub, Postman, VS Code, Linux
- **DevOps & Collabration**: CI/CD Basics, Software Engineering Principles, Agile/Scrum Methodologies, Docker, AWS(EC2, Lambda, S3, RDS)
- **Performance & Quality**: Debugging, Unit Testing, Integration Testing, Prompt Engineering, Performance Optimization

EXPERIENCE

AI Developer | Trank Technologies Pvt. Ltd.

Gurugram, India | Dec 2024 – Present

- Developed **AI-powered backend applications** using **Python, LangChain, Django, and FastAPI** integrating **LLM APIs (Gemini, OpenAI)** for intelligent automation.
- Built **AI chat systems and conversational interfaces** enabling real-time natural language interaction with users.
- Implemented **Retrieval-Augmented Generation (RAG)** pipelines using **LangChain, embeddings, and vector databases** for context-aware responses.
- Designed and maintained **RESTful APIs** and integrated third-party services such as **Stripe and Razorpay**.
- Optimized backend performance through **query optimization, caching, and efficient Django ORM usage**, improving API response time by up to **40%**.

IT Educator (Part-Time)

Apr 2021 – Mar 2024

- Taught **Web Development** concepts including **HTML, CSS, JavaScript**, **Software Engineering**, and programming languages such as **Python, Java, and C/C++**, along with **Pandas, NumPy, and Matplotlib**, to high school and college students.
- Mentored students on **problem-solving, algorithmic thinking,** and **real-world software development practices**.

PROJECTS

MyPotes: People Notes (AI Powered Contact & Notes Management System)

- Developed a **Python/Django backend with AI chat integration using LLM APIs and LangChain**, enabling users to interact with contacts, notes, and reminders through natural language queries.
- Built **secure REST APIs with JWT authentication** and optimized database queries to support **scalable cross-platform access for web and mobile applications**.

Human Resources Management (HRM) System

- Developed a Django-based Attendance Management System to streamline tracking and reporting of attendance for employees (Clock In – Clock Out, Attendance sheet download, Personal Document uploads, Regularization Request).
- Integrated features like role-based access control to distinguish between HR and Employees permissions.

EDUCATION

- **Master of Computer Applications (MCA)** ***(Pursuing)***
  Dronacharya Govt. College, Gurugram University
  Aug 2025 – May 2027 (Expected)
- **Bachelor of Science (Honours) in Computer Science**
  Keshav Mahavidyalaya, University of Delhi
  Aug 2021 – Jul 2024 | CGPA: 7.74/10
- **Senior Secondary (Class XII) – CBSE**
  Kendriya Vidyalaya, Delhi
  Apr 2020 – Jun 2021 | Percentage: 83%
